## WORK EXPERIENCE

**Chief Blockchain Officer**  
[Oviato](#) - United Kingdom

**2025 (Feb) - 2026 (March)**

Originally hired to help develop tools and services for what was the [Ovi.fun](#) platform, I was instrumental in their pivot to becoming a passkey native wallet infrastructure provider.

- Developed internal cryptographic framework
- Helped secure funding from DraperVC
- Designed the passkey prototypes

**CEO & Founder**  
[Moddable Limited](#) - UK

**2025**

Moddable Games publishes moddable tabletop games that empower players, artists and designers to become co-creators by embracing an open source ethos.

- Spent 10+ years developing Nukes (board game)
- Started developing online version of game
- 2 other games in pipeline

**Head of Engineering**  
[CakeDefi](#) - SINGAPORE

**2023 (Feb) - 2023 (September)**

Hired to design new meta protocols for Bitcoin. Went on to also form and manage a new "Moonshot" team within the company whose first prototype became Cake's 5th business vertical.

- Personally developed first prototype for [Ordzaar](#)
- Responsible for Hiring and Product / Team Management
- Learned more advanced UTXO skills such as:  
**Schnorr Signatures, Ordinals, Inscriptions and Runes**

Started as P4 Engineer  
Ended as M3 Manager

**Chief Technology Officer**  
[Neuroware](#) - USA

Branding, Website & App UX  
Featured on [CoinDesk](#)

**2013 - 2018**

Funded by 500 Startups and incorporated in the USA, Neuroware Inc provided blockchain infrastructure services to licensed FinTech operators and then regulators in Malaysia.

- Top 5 by [VentureBeat](#) from 500 Startups Batch 9
- Listed as Top 50 Global RegTech Companies by [Deloitte](#)
- Learned basic dApp programming skills such as:  
**UTXO Scripting, Solidity, EthersJS, BitcoinJS and IPFS**

**Chief Executive Officer**  
[R1](#) - MALAYSIA

Shareholder in CoKeeps & Sinegy

**2012 - 2025**

Founder & CEO - providing training, workshops and consulting on deep-tech topics such as distributed ledgers; with clients including DBS Bank (Singapore) and Baker Hostetler (USA).

- Author of Multiple Protocols including [DN-Key](#) & [SADO](#)
- 1st Company within the Securities Commission Sandbox
- Helped to Define Malaysia's Digital Asset Roadmap
- Launched Malaysia's 1st Regulated Digital Asset Custodian
- Organized & Presented at Multiple Communities & Events
- Developed Multiple Products (KYC, AML, LMS and Wallets)
